

## Stock Control Data Sheet

### In brief ...

Delstree Control makes it easy to manage and track your stock, whether it's stocked, shipped direct, requires serial number tracking or can be sourced from a number of suppliers.

Fully integrated with order entry showing free & physical stock levels as well as outstanding purchase orders.

Returns & refunds not only maintain stock, but also track returns to suppliers.

### Key Features

- Shipped direct purchase ordering
- Quantity break pricing
- Optioned product templates, e.g. size, colour, ...
- Serial number tracking
- Fast fuzzy searching on short & long descriptions
- Templated kitting options
- Stock import processes

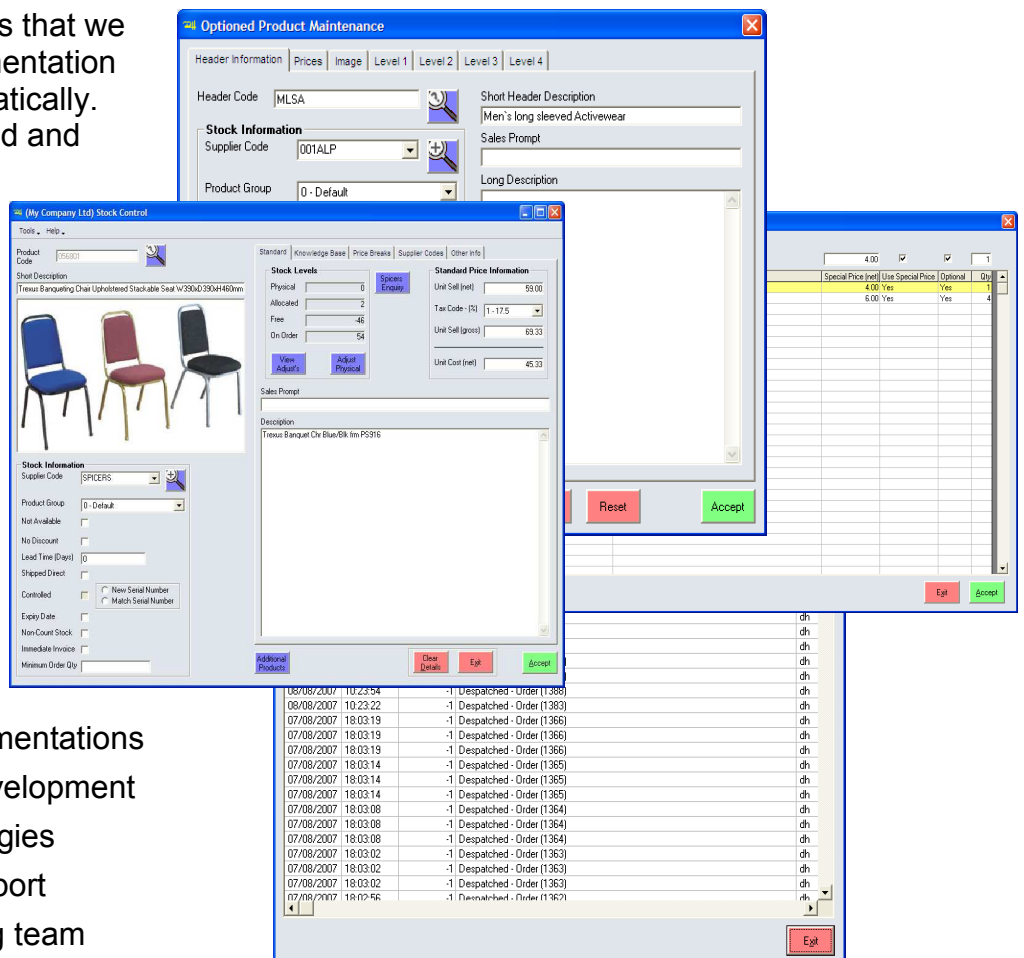

### Benefits

- Ensure the right products are found quickly & easily
- Complex pricing hierarchies can be quoted immediately
- Save time by removing duplication of data entry
- Be happy that all maintenance & duty of care certificates are carried out & issued on time
- Save money ensuring stock optimum stock levels are maintained

“ Delstree Control means that we know all legislative documentation is sent quickly and automatically. This gives us piece of mind and saves plenty of time. ”

Kevin Mallon,  
Director,  
Principal Hygiene

- Fully managed implementations
- Continual product development
- Future proof technologies
- Great after-sales support
- Be a part of a growing team

The screenshot displays the Delstree Control software interface. The main window is titled 'Optioned Product Maintenance' and shows details for a product with Header Code 'MLSA' and Short Header Description 'Men's long sleeved Activewear'. It includes fields for Stock Information (Supplier Code '001ALP', Product Group '0 - Default') and Standard Price Information (Unit Sell Price '53.00', Unit Cost Price '45.33'). A secondary window shows 'Stock Levels' for a product with Physical stock of 0, Allocated of 2, Free of -46, and On Order of 54. Another window shows a list of orders with columns for date, quantity, and status (e.g., 'Despatched - Order (1386)').
